16 Metre	15475mm x 1000mm	15975 x 1800mm	26

SH310

WESTERN SCORERS SHELTER

This Western Series scorers' shelter is designed with a Colorbond roof, a galvanised steel frame, and a colour-matched roller window, all powder coated in your preferred standard Dulux colour. It's built for easy installation, ready to be bolted down to a concrete surface.

Lockable side door allows easy access to inside the shelter where it is fitted out with a permanent bench with enough room for multiple scorers. The roller window opening provides year-round protection, making it an ideal scorers' box.

Installation services are also available. Contact our sales team to discuss a Western shelter tailored to fit your project's specific requirements.

SH310 **WESTERN STORAGE SHELTER**

All sporting codes come with team players, but also a lot of equipment that needs to be stored. Whether it's hockey, netball, cricket or football, we can customise a shelter to include on site storage built into the shelter, or separate to fit into any space. Being able to store your sporting equipment on site saves valuable time in the set up and pack up process. Give us a call and we can work with you to ensure all your sporting needs are covered.

SH450 ELWOOD

This 28 metre long shelter was purposely designed to allow four teams plenty of space. A roomy 7 metre area allocated for each side involved in the current game with a second 5 metre area for the next two incoming teams.

Central raised roof area offers a private 4 metre secure section for time keepers or umpires to stay out of the elements while having a perfect view of the game.

Each area was fitted out with bag hooks along the back wall to make most of the roomy seat area, finished off with fluorescent lighting, perfect for twilight games.

SH450 **ARNOLD**

Purpose design and built with 2 metre deep walls, this design allows players to stay out of the elements while still having great view of the game.

Clear polycarb top half on the back and sides allow easy viewing and plenty of natural light into the shelter.

Built in storage box under the seat for a quick pack up after the game.

SH340 **SPENCER**

A perfect addition to any park, the V shaped roof with galvanized support, Spencer shelter is also available in flat park form

The solid supportive main posts allow clear access under the shelter. Strong and robust, perfect to take the hard knocks of this skate park.

SHELTERS

SH350

RIDGEWAY

Roomy design, perfect to offer park visitors protection from the sun and rain over a relaxing family area. The timber slatted section reduces the afternoon sun.

SH280

REDCLIFFE

The sharp line design of the Redcliffe shelter is available with clear polycarbonate or colourbond sheeting in the back and sides. Made to multiple lengths this shelter is perfect for a sports shelter or school bus zone.

SH440

BELMORE

With the natural look of timber slats and secretly hidden panels of polycarbonate, this two sided shelter makes a waterproof covering that fits into the green garden environment perfectly.

SH130

WOODLAND

A contemporary design bus shelter with a curved colourbond roof. Picture shown with wheelchair access.

SH40

GEMBROOK

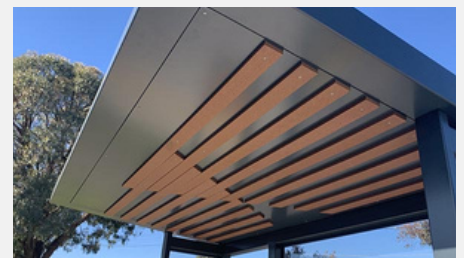

Customisable with 2 side wall depths, and the option of polycarbonate, perforated mesh and / or solid panels

SH500

NORTHERN

Stylish bus shelter with clear sides and back to allow easy viewing of waiting passengers, this shelter was finished with an intricate designed roof using composite recycled slats. This Northern shelter looked at home in this busy modern down town location.

SHELTERS

SH400

LEETON

A fully customisable sports shelter with plenty of options available to suit your sport.

SH420

CAPITAL

Our no frills colourbond side and roof bus or sports shelter is available in a flat pack form.

SH380

CASTLEMAINE

Fitted with safety glass panels and a curved polycarbonate roof, the Castlemaine shelter provides a light airy design with a clear view from all sides.

SH230

HIGHETT

This Highett shelter / enclosure was specifically designed to suit our customers requirement of securing bikes on the school premises. This 6 x 4 metre shelter was fitted with full mesh sides, internal bike racks, fully lockable door, and completed with a colourbond roof to protect the bikes from the weather.

DELIVERY & INSTALLATION

Urban Design Group can design, manufacture, deliver and install your shelter without you lifting a finger. Our range of vehicles include our own crane truck and installation team that can work in with your project to ensure it runs smoothly and on time. We offer everything from the excavation and concreting of the support pads, to locating and securing your shelters in position ready for use.

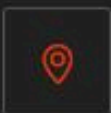

AVAILABLE FINISHES

Our shelters can be finished in a selection of powder coated colours, with a choice of polycarbonate, perforated mesh or solid panel inserts in various combinations. Aluminium or timber seating can be secured with wheel chair access.
