## LINDBURN

A customer favourite in our 'Quick Delivery' program, the Lindburn range combines industrial-grade durability with complete flexibility. It features a robust mild steel frame, finished with your choice of hot-dip galvanising or Dulux powder coating. Customise the look with either natural timber or sustainable recycled composite slats. Designed for flexible installation, the range is available with surface-mount base plates or permanent in-ground legs.

PS560

## BANYULE

Manufactured from a mild steel frame with surface mount legs or inground legs. The Banyule is available with low maintenance recycled composite slats or stained timber slats (pictured).

*Need it in a hurry? Our PS560 is a 'Quick Delivery' item too!*

*ST590 seats also available, pictured with timber (above), and recycled composite slats (right).*

## PS490

### KINGSVILLE

This picnic setting offers an ideal balance of style and heavy-duty functionality. It features a durable mild steel frame and support legs, finished in hot-dip galvanising or premium powder coating. Tailor the design to your space with a choice of stained timber or low-maintenance recycled plastic composite slats.

A stainless steel, etched chess board is also available as an option for the Kingsville picnic table.

ST310 bench seat also available, with or without armrests.

PS600

## HARVEST

An impressive 4.2m long statement piece for any outdoor space. Available in mild steel with a hot-dipped galvanised finish, or powder-coated finish in your choice of Dulux colour. Choose between an in-ground leg design or base plate for concrete bolt down installation. Now available with recycled composite slats as well as timber.

*The Harvest picnic setting works well with our Kingsville range.*

PS340

## LOCKSLEY

A versatile all-in-one unit, with wheelchair access on one side. Available with timber or recycled composite slats. This picnic setting can be bolted down or left free standing. Can be shipped as a flat pack item too!

PS410

## ALPINE

Shipped as a convenient flat-pack item, the Alpine is an all-in-one setting perfectly suited for schools and parklands. It features a robust construction and durable timber batons engineered for heavy use and long-lasting durability.

PS350

## KILBURN

The Kilburn picnic setting combines industrial-grade durability with versatility. Built with a robust mild steel frame, it is available in a hot-dip galvanised or powder-coated finish. This free-standing unit is designed for secure bolting to concrete and can be conveniently supplied in flat-pack form.

PS440

## HUME

Built to withstand Australia's harsh climate, the Hume picnic setting combines heavy-duty durability with modern style. It features a sleek, laser-cut stainless steel table top paired with your choice of premium stained timber or low-maintenance recycled composite slats. Customise the robust frame with a hot-dip galvanised or Dulux powder-coated finish. Fully inclusive and adaptable, the range is available in wheelchair-accessible configurations with options for surface-mount base plates or permanent in-ground legs.

PS380

## HOXTON

A distinctive variant of the Hume design, this Hoxton picnic setting features the same sleek, laser-cut stainless steel tabletop, paired with uniquely styled seats that feature a comfortable curved back edge.

PS540

## AARONDALE

Built to withstand heavy use in busy community hubs, the free-standing, surface-mount units feature a robust mild steel frame with resilient perforated sheet metal tops. Customisable with a wide selection of Dulux powder coat colours.

PS430

## GARLAND

It features robust mild steel legs, available with a hot-dip galvanised or Dulux powder-coated finish. Paired with your choice of stained timber or eco-friendly recycled composite slats.

PP10

## PICNIC POD

A contemporary, all-in-one outdoor solution that brings an attractive focal point to any public space. Built on a heavy-duty, powder-coated mild steel frame, it utilises sustainable recycled composite slats across the integrated seats, spacious tabletop, and overhead shade screen. This low-maintenance unit delivers weather resistance and long-lasting durability, making it an ideal spot for relaxation and community gatherings.

*An attractive  
focal point for any  
public space.*

## PS500

### ROSEDALE

This circular picnic setting adds a fresh, dynamic look to parks and community environments. The robust steel structure can be finished in hot-dip galvanising or premium powder coating, complemented by high-quality timber or sustainable recycled composite slats. Offering ultimate versatility, it can be installed via surface-mount base plates or permanent in-ground legs, and is available in 1, 2, 3 or 4 seat configurations.

## PS330

### LONSDALE

A compact and versatile seating solution, available in two configurations: a four-seat option or a three-seat arrangement with one side left open to allow for wheelchair access.

## PS640

### ALUMINIUM

Manufactured from lightweight aluminium, with Urban Design Group safety end caps. This picnic setting is free standing, and can also be bolted to a concrete surface. Ideal for parks, schools, and sporting grounds. Can be shipped all over Australia as a flat pack item.

*This aluminium picnic setting is also available with an umbrella hole.*

## PS645

### CHILDRENS' SNACK BAR

Portable, stackable, and incredibly lightweight. Designed to support active learning environments, this versatile setting is a must-have for schools, creches, and community spaces alike.

PS470  
**SANDRIDGE**

The Sandridge picnic setting combines a sleek, modern design with industrial-grade durability. Available in premium stainless steel or robust mild steel—which can be hot-dipped galvanised or finished in your choice of colour from the Dulux standard powder coat range. Tailor the aesthetic to your space with classic stained timber slats or opt for low-maintenance, high-durability recycled composite slats. To ensure inclusivity for all community spaces, wheelchair-accessible configurations are also available.

*Also available in the Sandridge range...*

## DAREBIN RANGE

The Darebin park furniture features timeless angles and a sophisticated combination of timber and steel, offering a truly modern feel. Select from a premium stainless steel frame or mild steel with a hot dipped galvanised, or powder coated finish.

Built for longevity, each piece is designed for secure concrete surface mounting. With a versatile variety of table and seat sizes available, configuring the perfect layout for your space is effortless.

PS290

## HARMONY

Defined by its robust 190mm X 70mm timbers, the Harmony range blends commanding presence with industrial strength. Its clean square legs and integrated support straps ensure exceptional stability in high-traffic environments.

Customise the finish to suit your project with either a hot-dipped galvanised coating or a premium powder coat from the standard Dulux colour range.

*Also available in  
the Harmony  
range...*

PS580

## MANCHESTER

Combining contemporary aesthetics with industrial strength, the Manchester range features a modern base design complemented by two distinct slat thicknesses. Tailor the setting to your space with traditional stained timber or high-durability, low-maintenance recycled composite slats. The structural base is available in premium stainless steel or heavy-duty mild steel, with finish options including hot-dipped galvanised or a powder coat in your preferred standard Dulux colour. To support inclusive community and public layouts, this versatile range is also available in wheelchair-accessible configurations.

*ST640 bench and ST630 seat also available.*

## PS390

### STIRLING

An ideal choice for high-traffic public spaces and harsh outdoor environments. Customise the finish with options including stainless steel, hot-dipped galvanised steel, or a durable powder coat finish (pictured). The setting offers two mounting options, in-ground or surface mount.

## PS420

### GILMORE

A striking stainless steel frame paired with stained timber slats. Available in various custom lengths to perfectly complement your venue, this setting offers ultimate flexibility.

## PS510

### EASTWOOD

The Eastwood picnic setting is the big brother to our Rosewood, featuring sturdy round legs and stained solid timber battens.

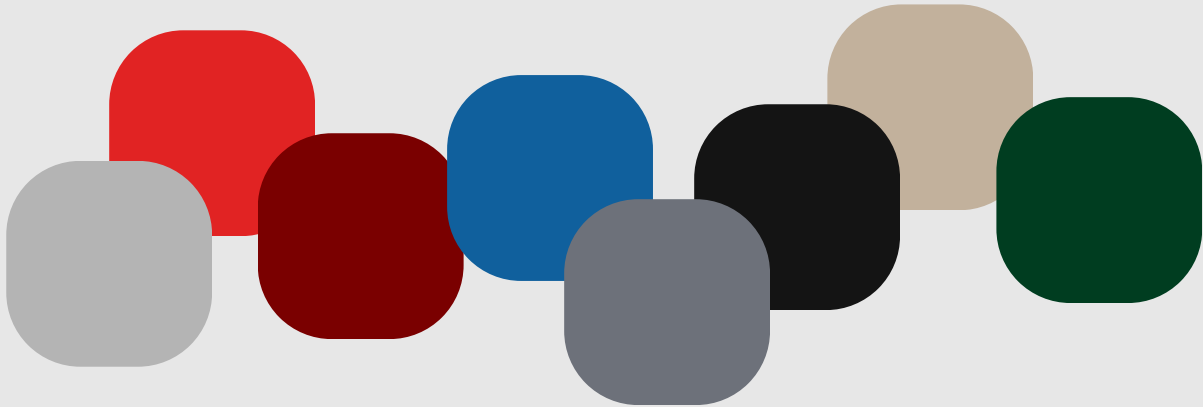

## DELIVERY & INSTALLATION

Urban Design Group can design, manufacture, deliver and install all your street and park furniture. Our range of vehicles including our own crane truck and installation team can work in with your project to ensure it runs smoothly and on time. We offer simply everything from the excavation and concreting of the concrete pads to locating and securing your furniture.

## AVAILABLE FINISHES

Choose from a variety of Dulux powder coat colours.
