RELOCATABLE

Why Choose Our Aluminium Range?

Engineered for durability and versatility, our aluminium furniture is manufactured from lightweight, high-grade aluminium and fitted with Urban Design Group safety end caps—plus protective rubber stoppers on all relocatable items. To suit any space or project requirements, all our pieces are available in a variety of custom lengths.

Designed for fast, efficient transport, our complete Aluminium range can be shipped anywhere in Australia as flat-pack items for easy assembly on site.

Looking to match your local council, school, or sporting club identity? Customise your furniture with powder-coated legs colour-matched to your specific team, school, or brand colours.
